## Seniors Aware of Fire Education

The big cool down of fall has already started and folks are firing up their wood and pellet stoves and plugging in their space heaters. Here are some things to consider as you prepare to use them.

### For fireplace and solid fuel (coal, wood, pellet) stoves:

- ~ Have your chimney professionally inspected and cleaned.
- ~ Burn only dry, well seasoned hardwood to reduce creosote accumulation.
- ~ Do not use flammable liquid to start the fire.
- ~ Make sure the damper is open before starting the fire.
- ~ Keep any flammable material at least three feet away from the stove.
- ~ Always use a fireplace screen to keep flying embers and sparks in the fireplace.
- ~ Shovel ashes into a METAL BUCKET with a METAL LID, and place it on the ground well outside the house and away from the porch. Ashes and embers can stay hot for days and ignite combustibles.

### If you must use a space heater, here are a few ways to use it safely:

- ~ Do not use a space heater as your number one heating source.
- ~ Keep any flammable material at least three feet from the heater.
- ~ Plug the heater directly into the wall outlet. Do NOT use extension chords or power strips with the heater.
- ~ Always turn off the heater when going to bed or leaving the room.
- ~ Remember, it is illegal to use portable kerosene and propane heaters inside your home because they create carbon monoxide.

### One more consideration:

- ~ Make sure you have working carbon monoxide detectors in your house. CO is a colorless, odorless gas, and is absolutely lethal.

Stay warm, SAFELY!

## Emergency Room Advice

Personal experience can be a terrific teacher. This is what I learned in the last 8 months or so. For this note, I will assume you are helping a family member or friend.

If it is necessary to send someone to the hospital emergency room, look at the transportation options, e.g., driving the future patient, or calling 911 and going in an ambulance. If the latter, the patient will be seen initially quicker than if he/she walked in. Plus, if there is a life-threatening issue or the patient is not capable of moving themselves, then obviously you want them to be in EMT care ASAP. Bless those folks.

Follow the ambulance safely – don't rush. It will take a little time for the ambulance to get there and into the hospital and for them to put the patient somewhere that you can see him/her. Take the time to get Necessary Stuff.

And what on earth is Necessary Stuff? This is a technical term (well, maybe not...) meaning identification, medicines, medicine list and schedule, paperwork, phone numbers, and things to do.

**Identification** – you may need the Medicare card or other insurance.

**Medicines** – toss (yes, carefully) the pill containers into a plastic bag. Include non-prescription items such as supplements. The hospital pharmacy is well-stocked but there may be meds that they don't have. In this case, they will package them and have you keep them safe. And, remember only the hospital staff is to give medicines while you are there.

**Medicine list** - Of course you already have this, right? Brand name, generic name, dose, and how many times a day and when the pill is taken.

**Paperwork** – the MOLST or POLST and a copy of the healthcare proxy. The hospital may already have these but you need to be sure. The default option, if they don't, is to label the patient Full Code and pull out ALL stops if the patient stops breathing. The health care proxy of course lets you ask questions and get answers, and make decisions to the benefit of the patient if they are unable to speak for themselves.

**Phone numbers** – You will need to call those who need to know, e.g., children, other family members, friends. You should have the number for the primary doctor, any consultants, or case managers. You may need to (*cont. on next page*)

## Tech. Help and Training for November

### Tech Support Available by Appointment

### Local chorus invites the public to sing along

Heart of the Valley Chorus, a women's voices barbershop a cappella group, is inviting members of the community to sing along with them at several open rehearsals this holiday season. Anyone aged 8 to 108 who enjoys singing in the "treble" range – soprano, alto, mezzo, and high men's parts – are encouraged to come learn a few holiday songs, with an option to perform along with the chorus at the Bombyx Center for Arts and Equity in Northampton on December 14. Singers under 16 are welcome with an adult.

Heart of the Valley Chorus has been bringing its unique blend of barbershop harmonies to the Pioneer Valley for 40 years. Members come from Longmeadow, Holyoke, Easthampton, Hadley, South Hadley, Leeds, Florence, and Goshen, and range in age from their 20s to their 70s! Singing a variety of music – jazz, Broadway, contemporary, and inspirational – all in four-part barbershop style, the group is dedicated to sharing their music with underserved populations and creating a safe and welcoming space for all singers.

**The group's open holiday rehearsals are scheduled for Wednesdays 11/13, 11/20, 12/4, and 12/11 at 6:30pm at the Christ United Methodist Church on Rocky Hill Rd in Northampton.** Anyone interested in joining this special holiday program should contact Stephanie at [heartofthevalleychorus@gmail.com](mailto:heartofthevalleychorus@gmail.com) or visit [www.heartofthevalleychorus.org](http://www.heartofthevalleychorus.org) for a registration form.

# SCAM ALERT!

*You get a call or message from a charity looking for donations. Should you donate?*

*Scammers try to fool you into giving them money.*

- They rush you into giving out your credit card number over the phone.
- They use names that sound like a real charity.
- They change the caller ID to make you think it's a local caller.

**What to do:**

-Research before donating. Look up the charity online & read what others are saying about it.

-Ask the caller to send you more information.

-Don't feel obligated to donate to someone who calls you.
